Agents, Structures and International Relations The

agent-structure problem is a much discussed issue in the field of international relations. In his comprehensive analysis of this problem, Colin Wight deconstructs the accounts of structure and agency embedded within differing IR theories and, on the basis of this anal-

Agents, Structures and International Relations

Agency, the property or capacity of actors to make things happen. The concept of agency is central to political theory. Political activities are carried out by agents, whose agency inheres in their power to produce effects. In politics, agency is generally reserved for human actors, and, more controversially, it is sometimes attributed only to particular categories of persons.

Agency | political science | Britannica

The agent-structure problem in international relations theory Alexander E. Wendt Two theories, neorealism and world-system theory, strongly influence con-temporary academic discourse about international relations. Both claim to provide "structural" explanations of how states behave in the international system.

The Agent-Structure Problem in International Relations Theory

International relations - International relations - Structures, institutions, and levels of analysis: Since the 1970s the study of international relations has been marked by a renewed debate about the relationship between structures and institutions in international systems. On one side of the controversy was a revival of the school of realism, known as neorealism, which emerged with the ...

International relations - Structures, institutions, and ...

While the structure-agency debate has been a central issue in social theory, and recent theoretical reconciliation attempts have been made, structure-agency theory has tended to develop more in European countries by European theorists, while social theorists from the United States have tended to focus instead on the issue of integration between macrosociological and microsociological perspectives.

(PDF) The Agent-Structure Problem in International ...

The agency-structure relationship goes deep into many seemingly different issues in very different approaches to power. I argue that whilst the agency-structure divide is false, our interpretation of the world - the way in which we describe it - means we cannot fully transcend the structure-agency divide

using natural language.

Agency and structure: Interpreting power relationships ...

The causal importance of social structure in this model has nothing to do with political oppression or liberty; i.e. 'structure vs. agency' does not map onto 'authoritarianism vs freedom'. The actions of a person who has all the freedoms of the modern white male heteronormative bourgeois subject are still just as socially structured as ...
