90+ Best Sears Craftsman 109 lathe images in 2020 | sears ...

Some early small Atlas (which is who made all Sears Craftsman lathes other than 109) had the index holes. I don't know if the 6 x 18 had them, probably the 10". The O.P. having a "6 x 18" means it ISN'T several of the 109, since I think only one or two types were made in that size. Most were 6 x 12, as mine (109.20630) was.

These lathes are commonly referred to as the Craftsman 109, or AA109, mainly, I take it, because they were sold by Sears and all had the model number starting with a prefix of 109. The AA comes from the company that originally

Craftsman AA 109 Lathe - deansphotographica.com

gears used in the Craftsman 109 are 24 pitch. That's one down. The main thing here is to get your cutting point on center, figure the depth of cut, and above all, count the division rotations and holes carefully! The seven needed to complete the set. Gear cutting is really a simple operation that provides numerous opportunities to goof up.
