### Design Drawing Of Concrete Structures

Reinforcement drawings (or details), fully describe and locate all reinforcement in relation to the finished surface of the concrete and to any holes or fixings. They are primarily for the use of the steel fixers and it is preferable that they are kept separate from the general arrangement drawing.

Design by approximate method a rectangular tank 6 m x 4 m in plan and 3.5 m in height. Tank is resting on firm ground. Grade of concrete is M25 and steel is Fe 415. Check the design for safe stresses. Design the following: a) Side walls b) Base slab. Draw neat sketches showing the reinforcement details.
