Finding The Epicenter Lab With

To find those epicentral distances, seismologists construct travel time curves, which plot distance versus time. Since Earth is a sphere, "Great Circle Distance" is usually calculated using the latitudes and longitudes of different stations and this

Lab Guiding Question:
How can you locate an
earthquake's
epicenter? Hypothesis:
To locate an
earthquake's epicenter
you have to find out all
the areas in which the
earthquake was felt,
and then take the
average and the
middle of all the
locations.
