### Inline Engine Diagrams

What is InLine Engine: InLine Engine is a type of engine design that is very basic and conventional. In this type of engine construction, the cylinders are placed in a straight line as shown in the diagram. As all the cylinders are in a straight line, manufacturers sometimes refer to this engine as a 'Straight Engine'.

### What is an InLine Engine? It's Design & Characteristics ...

The inline-four engine or straight-four engine is a four-cylinder internal combustion engine in which the cylinders are mounted in a straight line or plane along the crankcase. The single bank of cylinders may be oriented in either a vertical or an inclined plane with all the pistons driving a common crankshaft. Where it is inclined, it is sometimes called a slant-four.
