Summary -
eNotes.com

A progressive global capital tax is a utopian concept, but that does not mean that it is not worth considering as a goal. Having an idea of perfection allows economists and governments around the world to see how a world with drastically less inequality would be and then becomes a strong reference for future policies. Like

The reviews and the

Read Free Summary Of Capital In The

synopsis made by
Engels are inestimable
aids to the study of
Capital. The contents
of Capital are given for
the greater part in
Marx's own words. The
centre of gravity, in the
synopsis, as well as in
the reviews, lies in the
theory of surplus-value,
the corner-stone of
Marx's economic
doctrine.
