This K-1001 Basic Residential Series DPD swimming pool and spa test kit from Taylor is easy to use and provides fast, accurate readings. It tests for Chlorine (5-5 ppm), Bromine (1-10 ppm) and pH (6.8-8.2 ppm). It features an easy-to read comparator with molded fill lines, 3/4 ounce, reagents, and user-friendly, color-coded instructions.

Taylor K1001 Basic Residential DPD Pool or Spa Test Kit

To use the Taylor kit you put 10 ml of pool water in the sample tube, then add one drop of the chromate indicator. Then add drops of the silver nitrate indicator, counting each drop and swirling the mixture. When the mixture goes from a creamy white to a salmon pink, multiply the number of drops that you added by 200 to get your ppm of salt.

Amazon.com : Taylor Complete Swimming Pool/Spa Test Kit ...

Most well-known swim spas and "endless" pools use an undersized motor to power a propeller. This produces inadequate water force for swimming. An overworked motor also burns out sooner, resulting in an expensive repair. Our modified impeller design eliminates the annoying screech common to many other swim spas.
