English wine industry now worth £132 million

Parents send four-year-old children to be taught English by native speakers, who often serve as English-language babysitters, singing songs and playing games with kids in English. While ESL schools were first established to teach English to adults, in the last decade the demand has shifted to parents who are willing to spend up to half of their household income on language classes for their children.

How the ESL Industry in China is Changing | Go Overseas

The tourist industry today is seeing a new thrust in its promotion. However, internal factors like lack of security, patriarchal mindset and violence in the society are some problems which hinder the growth of the tourism industry.
