The Mind Is A Collection

The Mind is a Collection is a born-digital museum of early-modern cognitive models.Each object in this museum was used, at one time or another, to make sense of a mental process. Think of this as an exhibit of eighteenth-century mental life as seen from a material point of view.

MIAC :: The Mind is a Collection

The Mind is a Collection approaches seventeenth- and eighteenth-century metaphors of the mind from a material point of view. Each of the book's six chapters is organized as a series of linked exhibits that speak to a single aspect of Enlightenment philosophies of mind.

The Mind Is a Collection | Sean Silver

The Mind is a Collectionapproaches mental life from a material point of view; it begins from the start, redeveloping eighteenth-century British philosophies of mind as they looked to the world of things.The central strand of Enlightenment epistemology—a strand persisting in the modern era—leans against a certain guiding metaphor.

A minor may be no more than a small collection of responses, just enough to deal with a particular situation, such as a compulsion to argue with certain people or smoking in certain situations. Micros are "the building blocks of personalities—individual responses, thoughts, ideas, habit" (p. 24), as small as a physical or vocal tic or a repeated intrusive thought or emotion.

A Multiple Self Theory of the Mind - David Lester, 2012

Common sense is the collection of prejudices acquired by age eighteen. In 2014 top quotation expert and BBC broadcaster Nigel Rees discussed the saying in his newsletter and pointed to its presence in the book by Lincoln Barnett.
